Keep your game up to par all winter long with the **TruGolf Simulator!** This simulator was purchased to provide us the ability to offer golf services year round to the public. The simulator allows an individual to play a round of golf with their clubs and real golf balls throughout the winter.

One of the best aspects of the simulator will be the game improvement capabilities it will offer. The simulator measures the club through impact and the ball in the air and takes this information and puts it into graphics that are easy to understand. The instructor and golfer can then review that information and use it to help improve their swing. Lessons will be available on the simulator with PGA Professional David Crawley. Appointments can be made by calling 563-263-4735.
